ISB SPORT BEARINGS

YOUR SPECIALIZED CONSOLIDATED PARTNER

ISB SPORT BEARINGS SERIES

ENGINEERING AT THE SERVICE OF SPORTS

We design and manufacture our bearings to optimize and guarantee its performance in each application. Sport lives on challenges, details, limits, efforts, commitment. At ISB Sport we share these values and we strongly believe that improving the performances of every single component of a vehicle is the only way to make progress.

We've designed 3 different sport bearings series defined by 6 performance characteristics:

- Maintenance
- Rolling performance
- Versatility
- Resistance
- Protection
- Resilience

ENDURANCE BEARING SERIES

Application

Wheel hub
Bottom bracket
Suspension pivot
Headset
eBike motor
Pulley wheel

Type of bearing

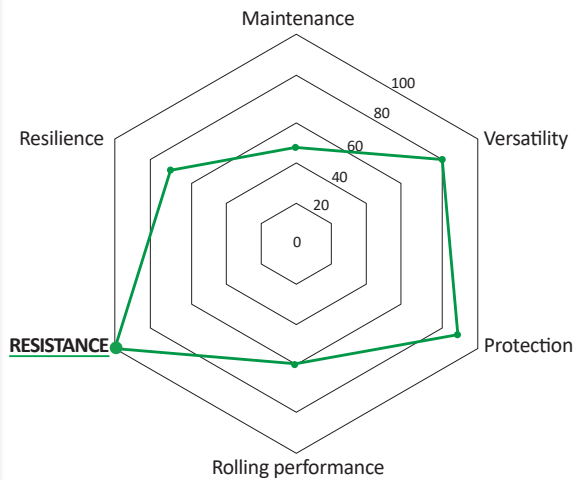

Steel bearings
Vmax bearings (specific for suspension pivot)

Suggested use

Regular / Training

Based on performance, versatility and resistance

PRO BEARING SERIES for high performances

Application

Wheel hub
Bottom bracket
Pulley wheel

Type of bearing

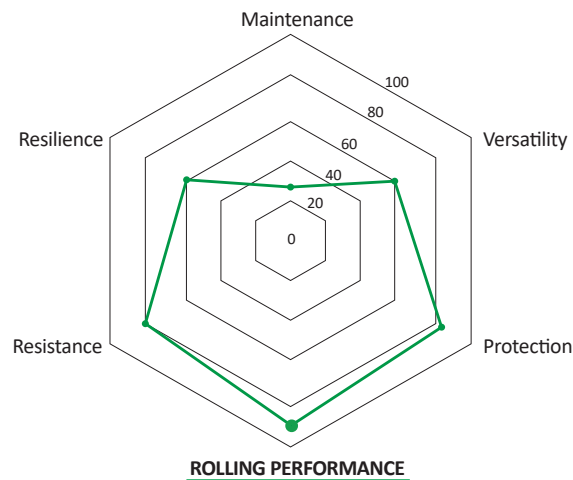

Ceramic bearings
Hybrid ceramic bearings

Suggested use

Training / Race

Designed to be multi-purpose and race-ready

XFORCE BEARING SERIES for race challenges

Application

Wheel hub
Bottom bracket

Type of bearing

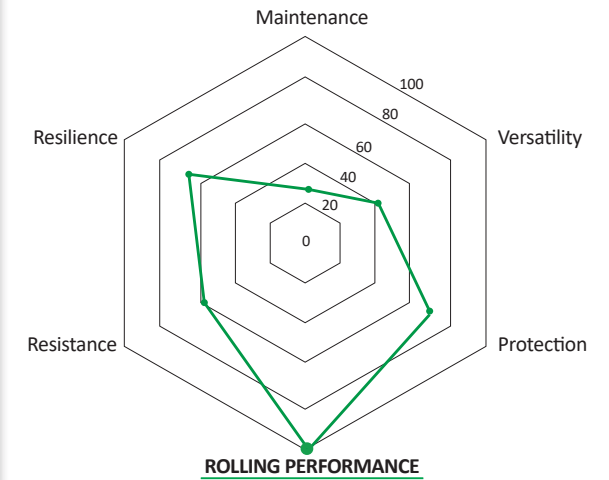

Steel bearings
Hybrid ceramic bearings
**Advanced structure!*

Suggested use

Race

High tech advanced range for Top competition
